NEW PATIENT REGISTRATION INFORMATION SHEET

Thank you for your enquiry to register with Charnwood Surgery. It is at the Senior GPs discretion to accept you onto our Patient register.

REGISTRATION PROCESS

Patients wishing to register with the practice will need to demonstrate that they are entitled to free NHS treatment by completing a GMS1 form, health questionnaire and a smoking questionnaire.

The Practice will need to establish that you have a main residence in the practice area. Dependants of patients who fulfil the criteria are also entitled to free treatment as long as they are the spouse (including civil partner), or a child, and are living together at the same address.

Entitlement to free NHS treatment is on the basis of **residency** regardless of any previous national insurance or tax contributions and irrespective of whether you are a UK passport holder. Holding an NHS number does not indicate that the NHS treatment is free of charge. **Proof of identity and address are required (see below).**

UK citizens living abroad

If you live abroad for most of the year you are not entitled to continue to be registered with this practice.

Anyone leaving the UK with the intention of living abroad for a period of 90 days or longer must notify the practice of this in advance. If you fall ill when returning on a visit, you are entitled to emergency care, if this is deemed necessary by the practice.

The onus is on the patient to prove their eligibility

All patients requesting to register with the Practice need to produce two forms of ID:

- **ID** – e.g. Birth certificate, passport
- **Address ID** – e.g. letter, NHS correspondence etc.

Children under 16 whose parent/guardian is registered with the practice/registering at the same time will need to provide either an original birth certificate or a certified copy or a valid passport.

If a patient repeatedly fails or refuses to provide identification or if staff have concerns over any patient (identified or otherwise), they may contact the Local Counter Fraud Specialist (LCFS). Contacting the LCFS does not breach the Data Protection Act: section 29 (3) which allows for the release of information for the prevention and detection of crime.

****For children up to 16 years of age****

Thank you for applying to join Charnwood Surgery. We would like to gather some information about your child and ask that you fill in the following questionnaire. You don't have to supply answers to all of the questions but what you do fill in will help us give the best possible care. **Please supply the child's birth certificate or a form of Identification with the completed form, a photographic form of ID (such as passport) and proof of your home address (such as a recent bank statement or document relating to your new home).**

Please complete all areas in **CAPITAL LETTERS** and tick the appropriate boxes.

Fields marked with an asterix (*) are mandatory.

Data Sharing

Summary Care Record (SCR)

Your SCR is an electronic summary of key medical information taken from your GP medical record. If you need healthcare away from your usual doctor's surgery, your enhanced SCR will provide those looking after you with key information to help them give you better and quicker care. Please refer to 'What is a Summary Care Record' document for more information or visit: <https://digital.nhs.uk/summary-care-records/patients>

Tick this box if you wish the child to have an enhanced SCR with core and additional information (recommended)

Tick this box if wish to opt-out the child of the SCR

Medical Interoperability Gateway (MIG)

The MIG enables secure sharing of relevant medical information from your GP record with other healthcare professionals who are providing you with direct care, even if they are not using the same electronic records system. At point of care you will be asked if you consent to the care service seeing essential elements of your record.

More information can be found by visiting: <http://www.healthcaregateway.co.uk/products>

Tick this box if you wish to opt-out the child of the MIG data sharing

Risk Stratification Preferences

Risk stratification is the process of identifying the relative risk of patients in a population by analysing their medical history. It's a key enabler for improving the quality of care delivered by the NHS. Charnwood Surgery is taking part in the Risk Stratification programme and will be uploading patient identifiable data for analysis. Patient identifiable information will only be viewable at GP practice level. Any NHS organisation external to the practice using risk stratification will only see anonymised data.

For more information please visit our website at www.hiranicharnwoodsurgery.co.uk

Tick this box if you wish to opt-out the child of the Risk Stratification programme

Enhanced Data Sharing Module (EDSM)

Charnwood Surgery use a clinical computer system called SystemOne to record your medical information. With your consent, you can allow your full GP record to be shared with other healthcare services that are providing care for you and who also use SystemOne.

These other services will always ask consent to view your record. For more information please visit our website at www.hiranicharnwoodsurgery.co.uk
